Clinical Genomics

WGS - 30x coverage

research (CHF/sample)	industry (CHF/sample)
850	1300

WES - 70x coverage

	research (CHF/sample)	industry (CHF/sample)
1-50 samples	350	525
51-100 samples	320	480
>100 samples	260	390

RNA-seq - 50PE; 25M clusters

	research (CHF/sample)	industry (CHF/sample)
1-150 samples	200	300
151-300 samples	190	275
>300 samples	160	240

Clinical Proteomics

Standard data-independent acquisition (DIA)

	research (CHF/sample)	industry (CHF/sample)
1-20 samples	1000	2000

21-99 samples	800	1600
100-499 samples	600	1200
500-999 samples	500	1000
>1000 samples	400	800

Phospho-enrichment workflow and data-independent acquisition (DIA) or alternatively data-dependent acquisition scheme

	research (CHF/sample)	industry (CHF/sample)
1-20 samples	1200	2400
21-99 samples	1000	2000
100-499 samples	800	1600
500-999 samples	600	1200
>1000 samples	500	1000

Basic PRM-assay development including optimization and determination of LOD/LOQ

	research (CHF/sample)	industry (CHF/sample)
1-20 samples	5000	10000
21-99 samples	2500	5000

Clinical Metabolomics & Lipidomics

Metabolomics (LC-MS, untargeted)

research (CHF/sample and mode)	industry (CHF/sample and mode)
110	220

HT Metabolomics (FIA-MS, untargeted)

research (CHF/sample and mode)

industry (CHF/sample and mode)

30

60

Lipidomics (LC-MS, untargeted)

research (CHF/sample and mode)

industry (CHF/sample and mode)

110

220

DEEP-track 'omic analysis
